VENISON GUIDELINES

A minimum of 10 pounds of venison is required for each product requested.

All venison must be fresh, boneless, and clean. We reserve the right to refuse any venison that does not smell fresh or is not cleaned properly.

Venison **MUST** be in clear plastic bags. Venison will not be accepted in black garbage bags or ice cream buckets. If bringing in meat that is already ground, please remove meat from packaging.

We do not accept venison during the summer months (April 1st to August 31st). Our last day to bring in venison is March 31st. Sorry, no exceptions.

All products will be sealed into one-pound (approx.) packages.

We will contact you as soon as your venison is processed. Your order must be picked up within 10 days of the date you are contacted or you may be subject to storage fee. Processing times are determined by the date received and number of products ordered.

The price per pound is charged on the finished weight of the product. For approximating finished weight, multiply venison weight times the number in the final weight column.

Prices are subject to change without notice, as the price of beef and pork fluctuates. Pricing at the time of order applies.

Methods of Payment: Cash, Debit or Credit Card, and Check

Our plant is HAACP Certified and State Inspected, with a State Inspector on the premises 5 days a week.

We smoke Venison Hams (Hind Quarters) once a year. The final day to bring in Hams is January 1st. We freeze the hams until then. We will not accept any Venison Hams brought in after this date.

By signing this line, you agree everything is correct on this order form. Changes CANNOT and WILL NOT not be made once signed.
